&

REPEATER'S COURSE FOR IIT-JEE / NEET

SEEKING EXCELLENCE IN EDUCATION

OUR MISSION & OBJECTIVES

To provide to our students an environment conducive to high quality learning.

To create a culture for intellectual curiosity and a genuine desire for knowledge and understanding.

To foster in every child, a sense of citizenship, to be amongst the community of students and know how to grow by themselves and amongst the peers.

In pursuing this vision, Chaitanya Bharathi strives to fulfill the following institutional objectives:

Offer a dynamic, interactive education environment that engages students in the learning process.

Provide clear learning outcome, detailed instruction, and assessment for all course to ensure course mastery.

Provide constructive feedback to promote student self-assessment and motivation.

The aim of education should be teach how to think, than what to think. In other words it must develop our minds, so as to enable us to think ourself, than to fill our memory with thoughts of other men.

FACULTY WORK CULTURE & INTEGRITY

A DEDICATED AND ACCOMPLISHED TEAM OF FACULTY teach at the **Chaitanya Bharathi**. The current team of permanent faculty have been chosen from leading South Indian Colleges on the basis of their excellence and teaching acumen.

Dissemination of lessons within the time-frame in keeping with the curriculum formulated in the best possible way so as to enhance the potential and skills of every student.

At **Chaitanya Bharati** we foster a learning environment that promotes responsible, principled behaviour which respects the dignity of all the members of the community. We are committed to practices that are fair, honest and objective in dealing with students, faculty members, staff and stake at all levels of the community.

Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectation.

Essence of integrated program

We believe that if the preparation for the boards is complete and thorough, it becomes a foundation for all the future programs. The curriculum set by the board has enough content for student appearing for such admission tests as IIT-JEE Mains / Advanced, BIT-SAT or any or all other such engineering, Medical entrances and CUCET, CA Foundation, CLAT/ALET. If we prepare the child for various admission tests, each on the basis of the particular pattern of examination, we not only lose a lot of precious time, but also overload the child with too many details and conflicting ideas. Instead of that as and when the child prepares for the boards, we give necessary additional inputs and enhancements by way of exercises on application oriented and numerical problems. One preparation should help the child feel confident about any or all the entrance and admission tests. This is the essence of integrated programme. Integrated learning incorporates multiple subjects and ideas, in an interdisciplinary method of teaching.

VARIOUS ENTRANCES

JEE
(MAINS & ADVANCE)

BITSAT

NEET

ISI

IISc

CA-CPT

VIT

KIIT

ALET

CUCET

ASSAM
CEE

CLAT

COMEDK

MIT

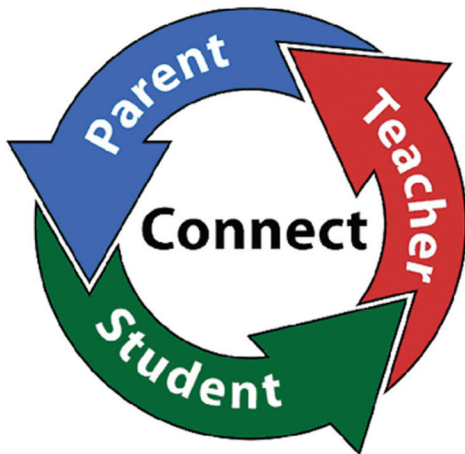

We have to remember that the most valuable development is self development. Teachers should stimulate pupils to think over what is taught and to develop their own individual thoughts and ideas over and above those. True education must impart both technique as well as intellectual vision.

Parent-Teacher & Parent-Student-Teacher meetings

Three Ways Interaction -Teacher, Parents, Student

We believe that a positive communication between the parents and teachers help improve the academic performance of the children. Parents must be totally aware of the learning outcomes of the students, should also have a chance to participate in a conversation with teachers about progress, potential and the ongoing evolution of the child. While teachers are experts in teaching, monitoring, and general psychology of a child, parents are fully aware of the attitude and aptitude of the child. So a dialogue between parent and teacher will educate both the parent and the teacher in general and in particular and allow them to guide the child in cohesion.

Further there must be a three way relationships between parents, teacher and student and working together positively we can help the children achieve their full potential. This is why we arrange parents teacher/ parent teacher student meeting three to four times in an year.

Parents must interact with teachers so that valuable feedback is exchanged and assessment of the child is complete and thorough.

COURSES OFFERED

IIT-JEE

- 2 years Integrated course for class XII Boards with JEE-Mains & Advanced.
- 1 year long term program for MAINS & Advanced for 12th Completed students.
- English, Mathematics, Physics, Chemistry & Physical Education are main subjects in Boards.

NEET

- 2 years Integrated course for class XII Boards with NEET, AIIMS and other competitive exams.
- 1 year long term program for NEET and other competitive exams for 12th Completed students.
- English, Biology, Physics, Chemistry & Physical Education are main subjects in Boards.

CA-Foundation

- 2 years Integrated course for class XII Boards with CA foundation.
- English, Accountancy, Business Studies, Economics and Physical Education are main subjects in Boards.

CLAT / ALET

- 2 years Integrated course for CLASS XII Boards with National Law Admission Test.
- English, Political Science, Sociology, Economics & Physical Education are main subjects in Boards.

- Well Expert faculty from **South India** with years of experience in training students for IIT-JEE, BITSAT, NEET, CA-Foundation, CUCET, ALET, CLAT etc.
- Proper & timely guidance for other entrance exams like KVPY, KIIT, MIT, ISI, VIT, CEE, COMEDK etc.
- Limited seats and limited number of students in each class with unlimited care.
- Individual guidance to give students high level of preparedness.
- Motivating students, creating interest in subject & making learning joyful.
- Integrated programme (Competitive Exams + Board Exams) course which saves time and reduces burden on the student.
- Quality material, weekly exams and paper analysis.
- Fully equipped Labs for all 3 subjects Biology, Physics and Chemistry practicals.
- Unique work culture that gives the child ample scope for self development and stimulate the child to evolve his/her own ideas over and above what is taught.
- Unique **CHAITANYA BHARATHI** working methodology.
- Parent-Teacher-Student Interaction.
- Hostel facility for boys and girls.
- AC Class Rooms.
- One section of max 30 students.

REPEATER'S COURSE PROGRAMME(RCP) FOR IIT-JEE & NEET

It requires courage to say that you will settle for nothing less than the best. For the XII passed student aiming to be in the best engineering/medical institutions, Repeater's Coaching Programme by **CHAITANYA BHARATHI** is perfectly suited. Your knowledge of the core subjects will be augmented by the diligent faculty into a thorough understanding and the lacunae filled. This intensive long term coaching of one year will prepare you for all competitive exams.

- ➔ Classes start in the month of June/July.
- ➔ Teaching hours: 2 periods of Biology, Maths, Physics & Chemistry.
- ➔ Work sessions: 10 periods per week.
- ➔ Daily counselling sessions.
- ➔ Exam schedule: Every Saturday NEET, Mains & Advanced (alternately).

The daily classes of 2 periods each of Biology, Maths, Physics & Chemistry will cover the complete syllabus. Though the concepts are limited, the applications are unlimited. As such practice is of immense importance. 10 periods of work sessions per week along with the counselling sessions help in removing the doubts. Weekly tests provide the necessary platform to assess and enhance skills.

Mentorship

Mentorship and proper guidance is the key to shaping students' career to brilliance. **CHAITANYA BHARATHI** believes that students have the potential to attain their goals and chase their dreams, provided they are put on the right path. **CHAITANYA BHARATHI** is the destination for students, from different states of the country, who are determined to pursue excellence in their career. Only they can aim to.

...Achieve Success

Admission criteria : Selection test

OUR FACILITIES

Fully Air Conditioned

The fully air conditioned classrooms provide a conducive and comfortable environment where in the students are unperturbed by the changing weather conditions.

Labs

Experiments and practicals demonstrations are part of a larger intellectual process of learning. Theoretical knowledge has to be augmented with practical experience. Many times a good demonstration enhances students' understanding and intuition. That's why right from the first year of the course we conduct practical lab classes.

**We believe practical classes
help students understand the
subjects better**
